PU Seated Knife Gate Valve

MVI PU sealed knife gate valve has a great abrasion resistant performance, is a new design specialized for mining industries.

In general mining process, high abrasion is one of the biggest problems for pipeline equipment, such as fittings, pumps, and valves. So request the equipment not only with great sealing performance but also need has a great abrasion resistant performance which was expectant. MVI MQPZ series PU seated knife gate valve is a new design specialized for mining industries, for example, Taconite, Iron Ore, Copper Ore, Gold Ore, Phosphorus Ore, Lead Ore, Coal Ore, etc.

MQPZ73PU Series PU Sealing Knife Gate Valve

Technical Specification

- Design Standards: MSS SP-81
- Flange Ends: DIN PN10, PN16, 150LB, JIS 10K, TABLE E/D
- Face to face: MSS SP-81
- Inspection and Testing: API 598
- Size and Pressure Range: DN50-200 16bar
DN250-400 10bar
DN450-600 8bar
DN650-800 6bar
- Body Material: GGG40, WCB, CF8, CF8M, CF3, CF3M
- Disc Material: CF8/CF8M/CF3M
- Sealing Material: Polyurethane
- Packing: Aramid fiber, high-water-based rubber packing graphite wheel
- Operator: handwheel, electric, pneumatic, hydraulic, sprocket, electro-hydraulic, gearbox

Exploded View Of PU Seated Knife Gate Valve

Product Description:

QP Series No groove bi-directional seal knife gate valve, cast iron body with the over all structures of the knife gate valve, including the body, gate, and U-shaped flexible seal at the bottom of the body with grooves. When the valve is closed, the bottom of the gate edge contact with the seal and then compress the seal into the groove of the body and sealed gate realization. When the gate opens, separate gate from the bottom edge of the sealing, seal will bounce to same level as groove, which will prevent the media sediment accumulated in the body cavity of the groove, no clogging, no residue, pipe easy to clean, so as to effectively improve the sealing effect knife gate valve to prevent leakage when the valve is closed.

Features:

- Bi-directional seal
- 2PC Body design
- Full port design
- Fluid without retention in valve body
- Super wearable special for mining
- 2PC Strong yoke design
- Mixed with a variety of materials packing

Polyurethane Sealed Knife Gate Valve For Mining Application

General Applications:

Applicable for coal in power plant, slag discharge, sewage treatment, food, paper making, medicine, petroleum and chemical industry, water, Oil, steam, connecting or cutting grout, gold powder, ores, slag, coal, pulp, wood pulp, tailings, fibers, dust, chemicals, sewage treatment, sedimentation tanks, asphalt, bunker export, cereals, slaughter plant waste and other media.
